

FleetRunner™

FLEETRUNNER™ HEAVY DUTY BELTS

GO FURTHER WITH FLEETRUNNER™

Don't settle for the limited service life of other belts, which drive up maintenance costs and take your trucks off the road. With more than 34% better load and wear protection, FleetRunner™ Heavy-Duty belts last longer between services, saving your fleet money and downtime.

Designed for the toughest applications, FleetRunner™ construction provides superior flexibility, stability, load capacity and unsurpassed belt life. Patented materials deliver peak performance at extreme prolonged operating temperatures making this belt the ultimate problem solver. An advanced blend of EPDM rubber technology withstands the modern threats of deterioration from increased exposure to oil, ozone and water-based coolants. FleetRunner™ does this all while providing the lowest cost per mile for fleets, including ¾ and 1 ton pickups.

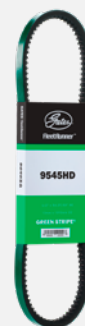

Made from aramid fiber reinforced EPDM rubber, all Gates FleetRunner™ belts are hard-wearing, crack-resistant and reliable, even where temperatures are extreme. Advanced tensile cord materials provide the necessary strength and durability.

FLEETRUNNER™ MICRO-V® BELTS

- Last 34% longer than OE belts
- Last 4X longer than other Aftermarket belts
- Superior resistance to the high heat conditions of modern diesel engines
- Lowest cost per mile

FLEETRUNNER™ V-BELT

- Outperforms the competition on the most troublesome drives
- Patented material provides peak performance at extreme prolonged operating temperatures
- Heavy-duty construction resists cracking and wear
- Oil and heat-resistant
- Unique undercord notch pattern offers increased flexibility for smaller diameter pulleys
